

<p>To change the access of this user. Go to the Organization Settings as an Admin.</p>	 <p>The screenshot shows the Azure DevOps interface. At the top, there's a header with the Azure DevOps logo and the user's name 'jagdishkumawat0945'. Below the header, there's a sidebar with a 'New organization' button and a link to 'Organization settings' with a red arrow pointing to it. The URL 'https://dev.azure.com/jagdishkumawat0945' is visible at the bottom of the sidebar.</p>						
<p>Click on Users.</p>	 <p>The screenshot shows the 'Organization Settings' page for 'jagdishkumawat0945'. The 'Users' tab is selected in the sidebar. The main content area shows a search bar and a list of settings categories: General, Overview, Projects, Users, and Billing.</p>						
<p>I have an user who has Stakeholder access.</p>	 <p>The screenshot shows the 'Users' page in Azure DevOps. It displays a list of users with their names, profile pictures, and access levels. The table has columns for 'Name' and 'Access Level'.</p> <table border="1"> <thead> <tr> <th>Name</th> <th>Access Level</th> </tr> </thead> <tbody> <tr> <td>Arun Shringi</td> <td>Stakeholder</td> </tr> <tr> <td>Jagdish Kumawat</td> <td>Basic</td> </tr> </tbody> </table>	Name	Access Level	Arun Shringi	Stakeholder	Jagdish Kumawat	Basic
Name	Access Level						
Arun Shringi	Stakeholder						
Jagdish Kumawat	Basic						

<p>Select the user and click on the 3 dots for the options, click on Change Access Level. Change the Access level to Basic or above.</p>	<div><div>Change access level</div><div><div><div>AS</div><div>Arun Shringi arun.shringi@jdbots.onmicrosoft.com</div></div><div><div>Access level</div><div>Basic</div><div>▼</div></div><div><div>Last Accessed</div><div>Never</div></div></div></div>
<p>Now, the user will be able to view the Repos.</p>
