June 5, 2023

Agenda – Class 14

Agenda:

1. Project

2. Project Team Meetings

3. Project Sprint I

4. No Exit Quiz Today

Project – Team Meetings

9:15-9:30 – Daily Stand-up Meeting

Three questions:

- What did I work on yesterday?
- What am I working on today?
- What issues are blocking me?

Update Trello to monitor progress.

Be sure to check in with your team at the following time.

11:30-11:40 – Team 2 check-in

11:40-11:50 – Team 1 check-in

11:50-12:00 – Team 4 check-in

12:00-12:10 – Team 3 check-in

Project

Teams will continue working on the website for the client.

Use Trello to assign tasks and monitor progress.
Class 14 – Standardize on a design by selecting the best design of the team members.

- Each student needs to update their page(s) to use the standard design.

- Try to use a common css file for all of the pages.
- Link to a second css file, if needed, for your pages(s).

2. Based on approval of the project, realize the first sprint to prepare a preliminary version of the website.
   a) Validate the html and css.
   b) Maintain a team repository for the project files.
   c) Name the zip file of the website TeamXProject.zip
3. Update the Trello board as the project is progressing through the sprint. Capture images of the Trello board to use in the presentation. **Include the updated Trello board in the presentation.**

Project Sprint 1

Update the site map and add file names, such as:
index.html
menu.html
about.html
dish1.html

Folder and file names will not have spaces.
If your team can manage, use folders for css and images. Pay attention to the path from the file to the image.
